**Read and listen to Omar's blog post. Which activity from Exercise 1 does he mention? How does he feel about it?**

Hi, I'm Omar! This summer was great. I played football every day! At first, I played with some of my **neighbors** in the street. Our street is quiet and very safe. We had a lot of fun and we liked to **imagine** that we were famous football players! Then, a new boy joined in. He told me about a football club in our area.

One afternoon, I decided to go to the club. There were lots of boys playing in two teams and I watched them for a while. Then, the **coach** saw me and asked if I played football, too.

"Do you want to try playing with the team?" he asked. Of course, I did! The coach watched me kick the ball and said I was a **talented** football player. He asked me to join the team. For the next six weeks, I played with my neighbors in the morning and then with the team at the football club in the afternoon. It was very tiring, but really fun! At the end of the summer, we took part in a tournament. I was nervous about it, but excited. I tried my best and scored three goals! Our team won the **tournament**. It was an amazing end to the summer!

**Read again and answer the questions.**

1 -Where did Omar play football at the start of the summer?

2 -Who told Omar about the football club?

3 -Why did the coach ask Omar to join the team at the sports club?

*Read and listen to forum posts about summer vacation activities:*

I noticed that there were too many empty cans and chocolate bar wrappers on the streets in our city. Last summer, I decided to do something about it. I didn't want to wait for the adults to clean up our streets. I made some posters to ask young people to join my group. Four people came to our first meeting. We picked up litter from one part of the city, put it in bags, and took it to the recycling center. The week after that, eight people came and then after that there were twelve of us. The group grew and grew over the vacation and now it has twenty-four members.

**Elsa, Salzburg, Austria**

Last summer, I did something really fun. I took part in a project where young people write stories using AI. Because computers write them, we had to check to make sure that there were no mistakes in them. Before I started, I didn't know that AI can write really good stories. You imagine that only people can write stories, but AI can give a helping hand. I was surprised! Most of the stories I read were fine, but sometimes I found something strange in them. For example, there was one story where the sun never sets. Of course, that's not possible, so I changed that part of the story.

**Leon, Manchester, UK**

Two months ago, I started helping out at a project in my city. In this project, young people like me help adults who can't read and write Arabic. My partner was Mrs Azza and she was very nice. First, we looked at the alphabet together. I said the sound for each letter and Mrs Azza repeated it. Sometimes, she nearly gave up, but then I said things like: "You're doing really well! Don't stop now." It was fun to be a teacher instead of a student, especially when I asked her: "Did you do your homework this week?", or "What did you learn yesterday?" It was great to help Mrs Azza learn something new.

**Gameela, Luxor, Egypt**

### The Temple of Edfu

The Temple of Edfu is an Ancient Egyptian temple in the town of Edfu. The town is on the West Bank of the River Nile between Luxor and Aswan. The temple is about 2,250 years old. It is important for understanding life in Ancient Egypt because the writing on its walls gives us very interesting and useful information about language and religion over 2,000 years ago.

Read again and answer the questions.

1 -Where's Edfu?

2- How old is the Temple of Edfu?

**Hadaya** : What did you do in the summer holiday, Mariam?

**Mariam** : I visited my aunt and uncle in Edfu. It's near to Aswan and there's a beautiful temple there.

**Hadaya** : Oh, yeah. It's an ancient temple, isn't it?

**Mariam** : Yes, and it tells us a lot about what life was like in Ancient Egypt, so it's a special place. Unfortunately, there are some problems at the Temple of Edfu. The weather in Egypt is bad for the stone walls. The wind and sand very slowly cut the stone away.

**Hadaya** : That's too bad. Do lots of tourists come to the temple?

**Mariam** : Yes, and all those people's feet are bad for the stone, too.

**Hadaya** : Is anyone doing anything to protect the building?

**Mariam** : Yes. Volunteers work with archaeologists on the buildings. Some of them are students like us who help in their summer holidays. They can stop these bad effects on some buildings, but there isn't enough time or people to help all the buildings at the same time.

**Hadaya** : That's a pity. And the buildings are so old, aren't they?

**Mariam** : Yes, because they're very old, they need lots of care and repairs.

**Listen and choose two words to describe Younis.**

**Basel** : So, Younis, what's your answer to the first question: did you help other people in the summer vacation?

**Younis** : Yes, of course I did. I helped out at my parents' restaurant. I cleaned the dishes and cleaned the floor in the restaurant at the end of the day. I often went to other shops to buy things that my parents needed, too. I would say I often helped my family and friends in the summer vacation.

**Basel** : Great, so you helped your family and you learned how to work in a restaurant.

**Younis** : Yes, that's right.

**Basel** : How about sports? How often did you do sports?

**Younis** : Every day, I think. I always played sport in the summer vacation. I love playing football with my friends near my building.

**Basel** : So, you were active in the holidays?

**Younis** : Yes, definitely.

**Basel** : The next question is: How often did you do something to help your community?

**Younis** : I often volunteered to help at a project in my community. People walk around the streets, collect litter and recycle it. Then our streets are cleaner and we can use the paper and plastic again.

**Basel** : Sounds great. Can I join in too? I never did anything in my community in the holidays, but I want to start helping out.

**Younis** : Of course, Basel.

**Basel** : The last question is did you learn anything interesting online this summer? How often did you go online?

**Younis** : I sometimes went online at home in the evening. I was usually tired in the evening. But sometimes I watched some videos about how to make videos with a phone and how to edit the videos so they look good.

**Basel** : That sounds useful.

**Younis** : Yes, I want to give it a try myself now.

*Read again and answer the questions.*

### A Rising Star!

When Hana Goda first started playing table tennis at the age of four, her talent for the sport quickly became clear. However, there was a problem. The table was too high for her!

"What can we do?" her coaches asked, seeing how much she wanted to play. In the end, they made the legs shorter so that the table was lower.

Since then, Hana has improved year after year, and she amazed the table tennis world by her speed and focus.

Born on 12th December 2007, Hana became Egypt's youngest ever national champion in 2019, at the age of 12. Just one year later, she came top of the ITTF (International Table Tennis Federation) under-15 women's world rankings-the first African and Arab player to do so. Then, in 2022, she won a top award at the ITTF African Cup in Lagos. What an achievement!

The United Nations chose Hana to take part in Shabab Balad, a project in Egypt to help young people learn and connect in the world of work.

Although Hana is still much younger than many of her opponents, she works just as hard as any older player. She has also spoken about how important it is for her to take things step by step, always learning and trying hard to achieve her victories. Hana really enjoys practicing for long hours every day, even if it is hard work. She is showing young people in Egypt that not only is it possible to make your dreams come true, but you can also enjoy the journey even if the road is difficult. The moral of the story: "Don't let difficulties stop you from achieving your dreams."

Subject:	My summer

Hi Ashraf,

Hope you and your family are OK. We're all fine.

I'm back at school this week after the summer vacation.

The summer vacation was good, but I'm happy to be back at school now. I can see all of my friends and it's good to learn something new every day again.

BTW, I learned quite a lot in the summer vacation, but I didn't learn the things you usually study at school. Instead, I volunteered to teach adults to read and write in Arabic and I learned how to explain things clearly. I think that will be useful to me

now we're back at school

Of course, I also had some fun in the summer vacation. I often helped my dad in his workshop. We both enjoy playing ping-pong, so we decided to make a ping-pong table. It was hard work, but we were v happy with the table when it was finished. We were able to play ping-pong every day for the rest of the vacation. How was your summer?

Hi Tamara,

How are you?

I'm sending you a photo of me at my grandma's birthday party last week. The party was at my **grandparents'** house and our whole family was there. We all had a lot of fun **together**!

The party showed me that sending **messages** to your friends and family is fine, but it's not as good as spending time with **them**. You can laugh with them, hug them, and look in their eyes and really listen to them.

Do you have time to **meet up** with me one afternoon next week? Maybe on the weekend? We could go to the shopping mall. There's a shop there that has some beautiful clothes in its windows. I could ask my parents for some money for the cinema or to go to a restaurant. My dad's friend Ali opened a new restaurant last month and it looks great. What do you think?

Write soon and tell me about your family.

Love, Malak

In this picture, my family and I were having lunch at my **grandparents'** house. My Aunt Salwa and her kids were there. The food was **delicious**! We had salad, **fattah**, and meat. My grandmother also cooked some delicious soup. After we ate, Mom made us all some tea and cake, which we all enjoyed. After that, I played outside with my cousins. It was great fun!

When you need to match pictures to text, **عندما تحتاج إلى مطابقة الصور بالنص**, first find the words for the most important things and people in the text.

ابحث أولاً عن الكلمات التي تشير عن الأشخاص والأشياء الأكثر أهمية في النص.

Then, try to find them in the pictures. If they are in more than one picture, go back to the text and look for more detailed information about them.

ثم حاول العثور عليهم في الصور. إذا كانوا في أكثر من صورة، ارجع إلى النص وابحث عن معلومات أكثر تفصيلاً عنهم.

for example are the people happy? Are they inside or outside?

على سبيل المثال: هل الأشخاص سعداء؟ هل هم في الداخل أم في الخارج؟

Are the things in the picture big or small?

هل الأشياء في الصورة كبيرة أم صغيرة؟

## FRIENDS ONLINE

Salma, a 15-year-old girl from Egypt, loved photography. She often shared her photos on a **website** for young photographers. One day, she got a comment from Ashly, a girl of her age from Australia, who liked her photos. They started chatting and found out they had a lot in **common**. Each day, they had to take a photo on a **specific theme** and share it. They enjoyed the challenge and became closer friends. However, one day, Ashly suddenly stopped answering Salma's messages. Salma felt worried. She sent **several** messages, but there was no **reply**. Salma felt sad that their friendship might be over.

Salma couldn't **focus** on her schoolwork or her photography. After talking with her mother, Salma **decided to** send a message, letting Ashly know that she was there for her. She wrote, "Hi Ashly, I hope you're okay. If you need someone to talk to, I'm here for you". A few more days passed, and finally, Ashly replied. She explained that she had been **dealing** with some difficult family news and needed some time **offline**. Salma was happy to hear from Ashly again. They talked about what had happened and made plans to **continue** their challenge. Salma and Ashly now had a better **understanding** of the importance of **communication** and being there for each other. They knew that their friendship, though online, was **real** and meaningful.

2 What hobby do they share?

3 What project do they decide to do together?

Happy birthday to my fantastic brother Mido! He's 15 today! He's a great brother because he's always there for me and our little sister when we need help. Thanks, bro!

And of course, we all know he's a top student and also an amazing football player – 16 goals last season for our school team! Well done Mido, I'm so proud of you. Have a great birthday!

**Subject:** RE: Hello new friend

Hi Asser,

Thanks for your email! You asked me about my free time. This is an important year at school and I don't have much free time, so I like to use it well!

In the mornings before school, I write a "To do" list of things I need to do. It really helps me to **organize** my day. After school, I do different things. It's important to take **regular** exercise, so on Tuesdays and Thursdays I play football with my friends. I like playing with them! They help me a lot. I also like to learn new **skills**, so I go to evening classes. At the moment, I am learning **first aid**! I want to be able to help people.

On the weekends, I spend time with my family. We like to go for walks in **nature**. We don't take our phones, so we can enjoy what is around us. There are some really lovely parks and gardens in this city. Sometimes my brother and I help in the **community**. He is a chef, and we help to make food for hungry people at his restaurant. I love to learn recipes from him. My mom is a good cook, too. I think my brother learned a lot from her!

Every night, before I go to bed, I write a journal. It helps me to think about what I have done and focus on good things. I think it helps me to sleep better, too!

Tell me how you spend your free time. Maybe I can get some good ideas!

Bye!

**Mahmoud**

Good afternoon! As you know, our students **aren't having** lessons this afternoon because it's the school sports day! At the moment, two students **are running** and their parents are watching them. That's great! Some students **are playing** tennis on the tennis court behind me. It looks like an interesting game. The football teams **are getting ready** for their match. Wait a minute ! One student is walking onto the football field. He's the captain of one of the teams! Now both of the teams are there. It's time for the game to start!

### An Unusual Hobby

When **Nermine's** family move to **Oxford** for her dad's job, she misses her **hometown**, Alexandria. She decides to use her favorite hobby, geocaching, to explore the city.

**Geocaching** is a special **sort** of outdoor **treasure hunt**.

Just like a normal treasure hunt, you solve **clues** to help you find something interesting – the treasure. But in geocaching, the clues come from an app on your phone. When you solve the clues, you get **coordinates**, which are pairs of numbers. These help you find the treasure – the geocache, a box with small, interesting things in it.

In Alexandria, Nermine loved geocaching with her friends. She's worried that her new classmates might think geocaching is geeky, so she doesn't tell them about it. Then, one lunchtime, **Nermine** is looking at a new challenge on her phone when two girls from her class, **Sarah** and **Ella**, come over. "What's that game?" asks Sarah. Nermine explains. "There are millions of geocaches all over

the world. When you find one, you don't take the treasure. You write your name in a logbook to

tell other geocachers that you found it, then you put it back. If you want, you can put something new into the geocache for other people to find". That sounds fun!" says Ella. "Can we play, too?" "Sure! But this is a really difficult one". "That's okay. Three heads are better than one, so maybe we will find the treasure more quickly together"! Their classmates notice that **Nermine**, Sarah, and Ella are spending all their lunchtimes together. They ask questions and soon there are ten of them geocaching. When they find the geocache, they discuss what to add to it. They decide on a school chair and a shell from the beach in Alexandria.

One day, Nermine, Sarah, and Ella decide to make their own geocache. They tell their math teacher. She thinks their idea is good and says that the geocache could be a challenge for the rest of the class. The clues lead the class all over the school. It's hard work and they have to work together. **Nermine** feels included and happy. Finally, they work out the coordinates and find the geocache. They all have such

a good time that they don't even mind that the treasure is extra math homework!

Hi everyone! I love coloring and painting, and I really enjoy going to art club after school. I also practice most days at home. It's so relaxing. My favorite thing to draw is animals. I think I can draw cats, dogs, and rabbits quite well! Here's a drawing I did of my cat last week. Do you like art, too? I would like to meet other people who share my hobby so that we can set up a group to draw and paint together. We could share ideas, give each other tips to improve our work, and have fun! Message me!

Nice to meet you Nabila I like your idea I draw and paint a lot too but sometimes I want to practice and share my pictures with other people. Also I have an idea for the group. We could have a different theme every month. Everyone in the group draws or paints a picture on that theme. We can then share them at the end of the month. What do you

## Inventions for a sustainable future

Our world has many problems. We need new ways to help us take care of our planet and fix some of the problems it faces. Here are some exciting new inventions which will help us.

## EcoATMs

We use regular ATMs to take money out or put money into our banks. Eco-friendly ATMs help us recycle old electronic devices. When you put your old device in it, the machine tells you how much money you can have for it. You can keep the money or give it to a charity!

## Solar-powered airplanes

Most airplanes aren't good for our planet. Solar-powered airplanes fly using power that comes from solar panels. It is very clean power. The planes can fly around the world, day or night. It's an exciting new invention for the future!

## Tree-planting projects

When we go online, we see online advertisements. Some search engines give the money they get from advertisements to help tree-planting projects around the world.

### Plant-based batteries

Scientists are developing batteries that work using material from plants. The way these batteries are made is better for the environment than traditional batteries. In the future, they could even produce enough power to run electric cars!

### Ocean clean-up projects

The world's oceans are full of plastic which is very bad for life in the ocean. Ocean clean-up projects collect rubbish in the water, then ships take it back to land for recycling.

When you go online to send messages, play video games, download an app, or just check your social media, it's important to remember a few simple rules that can keep you safe.

## 1 Choose strong passwords

It's important to use a **password** that is a mix of letters, numbers, and special **characters** like **!**, **&**, or **\$**. Long passwords are also a good idea as they are hard to guess. Never use your name or date of birth, your pet's name, or anything that hackers can guess from your social media.

## 2 Think before you post

When you post a comment or photo on social media, it stays there forever – even if you delete it from your account. Don't post or share anything **nasty** or false.

## 3 Be careful of friend requests

Don't accept friend requests from people you don't know. Always tell your parents if someone you don't know sends you messages or wants to chat with you, and don't click on any links they send you. Never share personal information with anyone.

## 4 Be kind online

Cyberbullying is a big problem for young people. It's easier for bullies to post horrible messages online as they can hide behind a false name. Cyberbullying can happen any time you are online – at home, at school, or out with your friends. Tell an adult if someone is bullying you. And always be kind online.

## A talk about science and technology

## Reader M1:

Science and technology – so what's the difference?

The main difference between science and technology is that they have different aims. Science tries to increase our understanding of how the world and everything in it works. Technology tries to solve problems and help us to do things more **efficiently**. Science is about asking questions about the natural world, questions like, if this happens, why does this always happen next? It's about looking carefully and recording **exactly** what we see. In science, when we believe something is true, we do tests to check our ideas. If we can use science to **prove** something, we know it is a fact. For example, we can do tests to show that, at sea level, if fresh water cools to a **temperature** of zero degrees **Celsius**, it always freezes into solid ice. Technology uses the information we learn from science to solve problems and find new ways to do things. Sometimes it does this by designing **devices** which can help us, like phones and computers. If you want to understand the **relationship** between science and technology, think about electricity. Many devices use electricity. We can't design a new phone if we don't understand how electricity works. Science can **explain** this for us. In short, science is about understanding the world, but technology is about doing things to help the world.

## The zero conditional

We use the zero conditional to talk about facts and things that are always true:

نستخدم الشرط الصفري للحديث عن الحقائق والأشياء التي تكون دائماً صحيحة.

if fresh water cools to a temperature of 0°C, it always freezes into solid ice.

We can't design a new phone if we don't understand how electricity works.

Conditional sentences usually have two parts: the if-clause and the main clause.

تتكون الجمل الشرطية عادةً من جزئين: جملة الشرط والجملة الرئيسية.

When the if-clause comes first, we put a comma between the two clauses. When the if-clause comes second, we don't use one.

عندما تأتي جملة الشرط أولاً، نضع فاصلة بين الجملتين. وعندما تأتي جملة الشرط ثانياً، لا نستخدم فاصلة.

We use the present simple tense in both clauses.

نستخدم زمن المضارع البسيط في كلا الجملتين.

**Yes/No question** السؤال بـ "هل"

Do/Does/ subj. Can + inf + الفاعل + مصدر الفعل + if + present simple جملة مضارع بسيط

Does the door open if you press that button?

**Wh-question** السؤال باستخدام كلمة استفهام

Question word + do/does/ subj. + inf + .present simple جملة مضارع بسيط

How can we get to Giza if we miss the bus?

في السؤال الجملة التي بها (if) عادة تأتي في النهاية.

ex. - What happens if you play lots of video games?

ex. - Do plants grow if we don't water them?

يمكننا أيضاً استخدام الحالة الصفيرية لإعطاء التعليمات أو تقديم اقتراحات وللقيام بذلك نستخدم (if) وصيغة الأمر :

If + present simple imperative مضارع بسيط صيغة الأمر

ex. - If you see Kamal, tell him to call me.

## Scammed!

Ali read the post carefully, and then read it again. "No way!" he thought.

He was on his favorite **gaming forum**. Usually, he used it to **chat** to other **gamers**, but this morning another type of post caught his eye. In it, someone wanted to sell a **limited-edition** games console. **Consoles** like that were very expensive, and they weren't many of them. Ali wanted it! Ali checked the time of the post: 2 am. It was now 8 am. Maybe he could be the first person to message the seller!

From his part-time job in a restaurant, Ali had some **savings**. He also had LE 500 from his grandma for his birthday. He checked his account: yes, he had enough for the console! The seller had a good profile and lots of positive **reviews**. So, Ali sent him a message. This console looks awesome! Why is it half price?

The seller replied quickly. He explained that the console was a present, but he already had one. He sent Ali some photos and videos of it. Thanks, Ali messaged back. I'll take it! The seller told Ali where to send the money, and Ali made the **payment**. He felt excited – his friends would be amazed when he told them!

Every day, Ali waited for the console to arrive. After three days, he messaged the seller again. The console hasn't arrived yet. When did you send it?

Another three days went by. No **reply**. No console. Ali began to worry. He messaged the seller again. The console still hasn't arrived. Please reply! Nothing. A whole week went by, and then another, until finally Ali **realized** it was a **scam**. He felt terrible, and very embarrassed. All his money was gone and he had nothing to show for it.

**Eventually**, Ali knew that he needed to tell someone. "Mom, Dad, I need to talk to you"...

Ali felt much better after speaking to his parents. They helped him report the **scammer**. The next time Ali went onto the gaming forum, the post was gone. He felt glad about speaking up, so the scammer couldn't do the same thing to someone else. He also learned to be **cautious** when shopping online. It was a difficult lesson, but an important one.

Over the next few months, Ali worked hard at the restaurant and saved up enough money to buy the console from an official seller. "Remember," he said to his friends when he **proudly** showed them his new console. "If something doesn't seem right, stop, think, and speak to your parents or another adult for advice. It could be a scam!"

### Solve it with tech!

This month, 24 talented students from Egypt, aged 14-18, participated in the International Science and Engineering Fair (**ISEF**) in the United States. It's a competition to develop a science or engineering project that solves a world problem. Students from 80 countries participated in the event. They have to use their scientific research skills and work in groups or on their own. Winners can study for one year in the United States. This year, Egyptian

students won many prizes for their inventions! Some of them had great new ideas for technologies that solve problems!

**Some project ideas in the competition:**

- 🕒 A smart life jacket that can help people in trouble at sea to be rescued as fast as possible
- 🌱 A technology that cleans dirty water in a way that doesn't hurt the planet
- 📱 A mobile phone app that can detect when a student has reading difficulties and help them

Which new technology do you think is the most important? Why?

### Finding specific information: numbers, dates, and times

العثور على معلومات محددة: الأرقام والتواريخ والأوقات

Sometimes, we have to find numbers in a text. Information in number form includes quantities, dates, and times.

في بعض الأحيان، يتعين علينا العثور على أرقام في نص. تتضمن المعلومات في شكل أرقام الكميات والتواريخ والأوقات.

To help you find the information, first look at the question to see what type of number it asks about

لمساعدتك في العثور على المعلومات، انظر أولاً إلى السؤال لمعرفة نوع الرقم الذي يسأل عنه.

The question word can help you decide this (when, how much, how many, etc.)

يمكن أن تساعدك كلمة الاستفهام في تحديد ذلك (متى، كم، كم عدد، وما إلى ذلك)

Think about how we usually express numbers of this type, then look for them in the text.

فكر في الطريقة التي نعبر بها عادة عن أرقام من هذا النوع، ثم ابحث عنها في النص.

## Definitions:

Word	Meaning	Definition
drought		when there is no rain for a long time
flood		when there's too much rain
storms		bad weather, with wind, rain, thunder and lightning
climate change		changes in the weather over time
water scarcity		where there isn't enough clean, fresh water for everyone

## How climate change is affecting me

Hi, I'm **Leonie**. I live in a village in **Andalusia** in Spain. Hot weather in summer is normal for us, but this summer the highest **temperature** was 46 °C. That's about five degrees warmer than it normally is. My family is having a lot of problems because of the hot weather here.

My family lives on a farm. Because of the hot weather, there's a drought in the south of Spain right now. The tomato plants on our farm are getting smaller and some of their leaves are brown. Because of the **drought**, we can't give the plants as much water as they need. My family therefore don't have enough tomatoes to sell. My dad is looking for a second job so he can earn more money

We're also having some problems with our health. My mom had **heatstroke** last week and she stayed in bed for three days because she was too ill to get up. She had a fever and she was really tired all the time. We were very worried about her, but, **fortunately**, she's feeling better now. Some of my friends had heatstroke, too. I'm trying to stay inside as much as possible, so I don't get heatstroke as well.

The worst thing about this summer for me was that our school closed for a week. The teachers said it was dangerous for us to travel to school because it was so hot. It was also too hot for us to be at school because we don't have air **conditioning** there. I missed my friends when we couldn't go to school. I hope that never happens again!

## Thirsty planet

**Water scarcity** is one of the most worrying problems facing the world today. Although water covers more than **70%** of Earth's surface, two billion people don't have enough fresh, clean water for drinking, washing, cooking, and growing food. Even in countries where there are good water **resources**, the water cannot always reach the people who need it.

One of the reasons for water scarcity is **climate change**. **On average**, temperatures are higher than they were in the past. In some places, there is also less rain, so there isn't as much water in lakes and rivers. Water scarcity **affects** people in different ways. Farmers, for example, can't grow as many crops as they used to. Without crops to sell, they can't earn enough money to pay for clean water. A lack of water can also mean that people have to walk a long way to find it, which can have a negative effect on their health. The biggest impact can be on children, who have less time to spend in school.

Another problem is that people often can't find clean, safe water. The dangerous metals and **bacteria** in dirty water can make them very ill. This can be more dangerous for children than for adults because their bodies are less able to fight the **illnesses**.

Solving the problem of water scarcity is not simple. However, there are lots of things that can help such as finding new water sources and developing new **technologies** to produce and clean water. It is also important that people who live in countries with plenty of water don't use too much of it. The worst thing that could happen is that no action is taken, and more people **suffer**.

## Comparatives and superlatives

## Using comparatives

We use comparatives to say what is the same or different about two things, people, or situations.

نستخدم المقارنة ليقول ما هو متشابه أو مختلف بين شيئين، أو شخصين، أو مواقف.

Add **-er + than** to **short** adjectives:

On average, temperatures are **higher** than they were in the past.

Use **more** or **less** before **long** adjectives:

This can be more dangerous for children than for adults

## Using superlatives

We use superlatives to express the highest degree of something (the tallest / the smallest – the most / least expensive)

نستخدم صيغة التفصيل للتعبير عن أعلى درجة لشيء ما (الأطول / الأصغر - الأكثر / الأقل تكلفة)

Use **the** and add **-est** to **short** adjectives:

on stand-by	في حالة الاستعداد	not switched on but still using power
save energy	يوفر طاقة	not waste electricity or fuel

Air conditioning, hot water, and electronic devices in our homes all use a lot of electricity.

Making electricity uses a lot of the planet's resources, which can make climate change worse. Let's help our planet – let's save energy at home!

- (A) There are about 150 to 200 liters of water in an average bath, but there's only between 30 and 80 liters in a five-minute shower. Showers are a great way to save water and energy. But don't spend a long time in the shower: set the alarm on your phone for five minutes and then stop!

(B) Remember to always switch off lights, TVs, computers, games consoles, tablets, and all of your electronic devices when they aren't in use. Don't leave them on stand-by as this still **consumes** a lot of energy. And don't use more than one device at the **same time**!

(C) There are lots of things in our trash that we can recycle or even reuse at home. Plastic bottles are a good example. **Reuse** them to make other things, for example a **bird feeder**, or a **hanging basket** for your plants.

### Types of rocks

#### Teacher:

Good morning class Today we're looking at different types of rocks for module 3 on the **composition** of the Earth. Tarek, please show the first slide. That's it, thank you. The Earth's surface is, as you can see, made up of layers of rocks. Rocks are **solids** which are made of **minerals**. Rocks can be grouped into three types depending on which minerals they contain and how they were formed.

#### Teacher:

The three types of rock we're looking at today are **sandstone**, **basalt**, and **marble**. Sandstone is usually found near the Earth's surface. It's formed from the broken parts of other rocks and material when they **press** together. The youngest **layers** of sandstone are at the **top**. The oldest layers are at the **bottom**. The Ancient Egyptians used sandstone to build things, like the **Sphinx** at Giza.

Now, if rock becomes very, very hot, it melts into liquid. **Basalt** is a type of rock that forms when liquid rock cools again and becomes **solid**. We find these rocks in the bottom layers of the Earth's surface. It can make some amazing natural shapes. Here's an example. This is the **Giant's Causeway in Ireland**.

Lastly, let's look at **marble**. Marble is also found in the bottom layers of the Earth's surface. It forms when other types of rock change because of extreme heat or extreme **pressure**. These **conditions** cause the rocks change because of extreme heat or extreme pressure. These conditions cause the rocks to get very hot and compressed. They don't melt, but the minerals in them changes form. Marble is a very strong type of rock. It is often used to make statues, like this one here from Ancient Greece.

## Mind mapping ideas

Mind mapping is a good way to **generate** ideas in a group. One person writes the topic on a big piece of paper. The other group members look at the **topic** and share any **expressions** or ideas that come into their minds about it. The first person writes all the **ideas** on the paper. Then, the group looks at the ideas again and decides which ones are useful.

## أفكار الخرائط الذهنية

الخرائط الذهنية هي وسيلة جيدة لتوليد الأفكار في مجموعة يكتب أحد الأشخاص الموضوع على قطعة كبيرة من الورق. ينظر أعضاء المجموعة الآخرون إلى الموضوع ويشاركون أي تعبيرات أو أفكار تخطر ببالهم حوله. يكتب الشخص الأول جميع الأفكار على الورقة. ثم تنظر المجموعة إلى الأفكار مرة أخرى وتقرر أيها مفيدة.

## Articles

Articles are short words that we use before a noun to show whether we are talking about something in general or something specific.

أدوات التكبير والتعريف هي كلمات قصيرة نستخدمها قبل الاسم ليبين ما إذا كنا نتحدث عن شيء عام أو شيء محدد.

When we talk about something specific, we use **the**:

عندما نتحدث عن شيء محدد، نستخدم: (the)

- ▶ **The** Earth's surface...
- ▶ **The** oldest layers are at the bottom.

When we talk about something in general, we use **a** or **an**:

عندما نتحدث عن شيء ما بشكل عام، نستخدم **a** أو **an**:

- ▶ Basalt is **a** type of rock...
- ▶ Here's **an** example.

We use **an** before nouns that start with a **vowel**, and **a** before nouns that start with other letters.

نستخدم **an** قبل الأسماء التي تبدأ بحرف متحرك، و **a** قبل الأسماء التي تبدأ بأحرف أخرى.

- ▶ I have **a** car.
- ▶ I have **an** apple.

We do not use an article before the name of a person or place: (Mr Hussein, Nabil, Cairo, Egypt) before the plural form of countable nouns (cars, camels), or before uncountable nouns (sugar, water, rain).

لا نستخدم أداة التعريف قبل اسم الشخص أو المكان: (السيد حسين، نabil، القاهرة، مصر) قبل صيغة الجمع للأسماء المعدودة (السيارات، الجمال)، أو قبل الأسماء غير المعدودة (السكر، الماء، المطر)

Note We depend on the sound of the letter more than its type, whether it is a vowel or a consonant.

لاحظ: إننا نعتمد على صوت الحرف أكثر من نوعه متحرك أو ساكن.

- I spend **an** hour watching TV.
- I want to join **a** university.

## Identifying the structure of a poem

## تحديد بنية القصيدة

Every poem has a different structure. The structure helps to show us what the poem is about or how the poet felt when he or she wrote it. When you look at a poem and you want to know what structure it has, notice these things about it:

كل قصيدة لها بنية مختلفة تساعد البنية في توضيح ما تدور حوله القصيدة أو كيف شعر الشاعر عندما كتبها. عليك أن تنظر إلى قصيدة وتريد أن تعرف ما هي بنيتها، لاحظ هذه الأشياء عنها:

1 How many stanzas it has — Stanzas are the different parts of a poem that usually have a blank line between them.

1- كم عدد المقاطع التي تحتوي عليها — المقاطع هي الأجزاء المختلفة من القصيدة التي عادة ما يكون بينها سطر فارغ.

2 Which words rhyme — When two words end with the same sound, they rhyme

2- أي الكلمات تتناغم — عندما تنتهي كلمتان بنفس الصوت، فإنهما تتناحمان.

3 Personification — When the poet gives qualities of a person to a thing.

3- التشخيص — عندما يعطي الشاعر صفات الشخص لشيء ما.

## Helping the planet

## Rami's eco blog

Hi, my name's Rami. Last year, I watched a **documentary** about the **effects** of human activities on the planet. After that, I decided to **make** some changes in my life **because** I wanted to be more eco-friendly. In the past, I always traveled to school by bus, **but** now I ride my bike to school. It only takes 15 minutes, it's healthy, **and** it's fun!

Before, I never put my trash in the recycling bins **and** I never thought about if it was recyclable or not. Now, I always look for the right type of recycling bin **and** put my trash in it, **because** I understand how important it is to reuse the Earth's resources.

Now, I also try to switch off all my tech devices – like my laptop **and** my games console – when I'm not using them, **because** I know that this saves energy **and** that's good for the planet, too.

We can all do things that help in small ways!

What changes have you made to help the planet? Leave a comment below.

We asked our readers to tell us about the traditional food that they love. Here's what they said! Most Egyptians know hawawshi .It is a type of bread with meat ,vegetables, and spices inside it .Some people like to add cheese to it, too. You bake it in the oven and eat it warm. Delicious! You can also find it in some parts of the Middle East.

## Samir, Cairo

Chipsi mayai, which is also sometimes called zege, is a very popular traditional food here in Tanzania. We make it with fries and eggs fried in oil. I love it, but I don't think it is a very healthy snack, so I don't eat it very often!

## Elizabeth, Arusha

Maakouda are very popular in Morocco ,Algeria, and Tunisia. We make them with potatoes. We boil the potatoes in hot water, then make them into small balls .Sometimes we put meat, fish, or cheese in them, too .Finally, we fry them in a lot of oil and serve them in a sandwich. They're so good!

### Dear Sir or Madam:

My family and I ate at your restaurant last Wednesday. The restaurant is clean and comfortable, but **unfortunately**, we did not enjoy our meal very much **at all**.

It took a long time for our **starters** to arrive. We kept saying to each other: "When did we order our food?"

I think it was 40 minutes ago!" I ordered a special salad which must be quick and easy to make. After 50 minutes, the **waiter** brought our starters to us. The starters tasted delicious, but then our **main courses** came about one minute after we finished eating the starters! We didn't like that at all.

We all ordered **sayadieh el samak** as our main course. When it arrived, there weren't any tomatoes on our plates. "Why did your cook put no tomatoes on our plates?" we asked the waiter. He said, "We don't have any tomatoes today".

After all of that, we weren't sure if we wanted **desserts**. But, as it was my daughter's birthday, we decided to order them anyway. Five minutes after we ordered, the waiter came back to our table and asked us:

"What did you order for dessert?" At that point, we decided to pay for the food we had and leave. I had ordered basbousa and I can also buy that in a sweet shop. So, that's what I did!

Your restaurant is a nice place, but I really think that you need to make some changes. Our family **definitely** doesn't want to eat there again unless you improve your service.

Regards,

Randa Al-Katib

**Mom:** And you picked Australia.

**Farah:** Yes, I didn't know anything about Australian food so I thought it would be interesting. Once I'd decided on the country, I went on the Internet and did a search for famous dishes. I looked at a few different websites so that I could check the information. I then looked at the questions from the project and tried to find the answers. The next thing I did was make notes. Then, I selected the information from my notes that I wanted to include in my project. Finally, I wrote the recipe card. Do you want to see it?

**Mom:** Yes, please!

## Narrator

**1:Chinese boy:** At New Year in my country, we have a very big festival. At this time of year, we always cook special noodles which are very, very long. In Chinese, this dish is called "longevity noodles". It's a dish that we believe can help you to live a very long life! We say if you eat very long noodles at New Year, your life will be very long in the future!

## Narrator

**2:French girl:** The Bûche de Noël is a traditional cake that we bake for Christmas in my country. We roll the cake into a cylinder shape, then cover it in chocolate. We

also often decorate it with sweets which look like leaves, or we put sugar on the cake to look like snow, so the cake seems like the branch of a tree in winter!

### Narrator

**3:Ethiopian boy:** My favorite celebration dish is called yebeg wot. It's a delicious meat dish that we cook during the vacation season. We make it with lamb, onions, tomatoes, garlic, butter, and special spices. In my family, my grandma is the person who usually cooks the yebeg wot. She also bakes a type of bread called injera, Which she serves next to it.

### Narrator

**4:British girl :** In my country, there's a popular celebration dish called Christmas pudding. It's a dessert which has lots of dried fruit, sugar, and spices in it. We boil it for a long time, then serve it hot with a sweet sauce. Sometimes you can find a coin in your Christmas Pudding! People bake a coin into the pudding and the person who finds it will have good luck!

## The Living Café

"What's that?" asked Magdy. The two friends looked more closely at the trash on the ground. "It's a coffee cup," said Sami. "And look, there's another over there".

Magdy and Sami were in their local park. It was a beautiful day and the flowers were in bloom, but everywhere they looked there were used cups, plastic straws, and old food containers. "Most of this trash comes from a nearby café," said Magdy. "Why don't we set up a café that makes almost no waste?"

"No waste? How is that possible"?

"Well, take this coffee cup. Next time the person who used it wants a coffee, they can bring their own cup to the café. In return, they pay less for their coffee". "That's a good idea". "And instead of plastic straws, our café can give paper straws that don't hurt the environment". Sami's eyes lit up. "There are ways to reuse waste, too. Think of all those coffee grounds— we can use them as compost to grow food" "Food that we serve in the café"! The two friends were excited. They talked about their ideas all the way home. Soon, Magdy and Sami bought an old building near the park. They cleaned it and painted it bright colors with environmentally friendly paint. They put in recycled glass windows and used old pieces of wood to make tables and chairs. They also hung lots of plants from the ceiling. On the roof, was a little garden for growing herbs, fruit, and vegetables.

A few weeks later, The Living Café opened. It was quiet at first, but then people started to notice it. They liked the way they could help save the planet with their morning coffee! More people came for lunch, and said the food tasted delicious

and very fresh. They were excited to hear that some of the ingredients grew on the roof of the café. The Living Café quickly became the most popular café near the park.

One day, Magdy and Sami walked through the park again. This time, there weren't any used coffee cups on the ground. There were a few straws, but they were paper. Magdy picked one up and put it in the bin. "Every little act helps!" he said, smiling.

Subject: My favorite food

Hi Emma,

How are you? I enjoyed hearing about your new school. You asked me about my favorite food. Well, I love lots of different types of food, but these are my all-time top three favorite dishes...

First, it's got to be burger and fries. Some restaurants fry their burgers, but I prefer mine grilled. They're healthier that way, too. This is why I usually eat them at home. I like them with tomato and onion in the bun. I know fries are a bit unhealthy, so I don't eat them often, but I do love them. They're so crispy and salty. Delicious! Another type of food that I really like is salad. It is healthy and good for you. Of course there are many different types of salad and you can make it in a hundred different ways, but I like to have mine with cucumber, onion, and cheese. I put lots of olive oil on it, too. I like it best with fresh bread as a cold lunch. I always make and eat my salads at home.

And finally, my favorite dessert is definitely strawberry cheesecake. I know how to make it, but my mom's cheesecake is the best! I love the taste and smell of the strawberries and the soft, creamy cheese is delicious. I love eating it on hot days. It's the perfect summer dessert. Yum! What are your favorite dishes?

Bye!

Shaden

## Water world

In some countries around the world, not having enough clean water is a big problem. In fact, almost two thirds of the world's population face water scarcity at some point during the year. This means having to walk a long way to find clean, fresh water, or not having enough to drink, cook, and wash. Not having enough water can have a bad effect on people's health. Our bodies need a lot of water to stay healthy, but dirty water can make us very ill.

People who need water to earn money also suffer when there isn't enough. For example, farmers need water to grow crops. Without it, they don't have enough crops to sell. Some research shows that the problem of water scarcity is getting worse because of climate change. We must act now to find a solution!

## • Eating green

**Hana:** What are you doing, Menna?

**Menna:** I'm reading an article about ways to "eat green."

**Hana:** You mean ways to eat more green vegetables?

**Menna:** Haha, no, not exactly. Eating green is about making food choices that don't harm the environment.

**Hana:** Oh, I see.

**Menna:** Our food choices have a big impact on the environment, you see. They can either increase, or help to reduce, climate change.

**Hana:** Can you give me an example?

**Menna:** Sure, no problem. Choosing local produce can make a big difference. If you buy food that is grown near to where you live, it doesn't need to travel long distances to get to you.

**Hana:** That's true. I guess driving or flying food around the world causes pollution.

**Menna:** Exactly. Secondly, try to buy food that has little or no packaging". Or, check that the packaging is made from something like paper or cardboard. Plastic packaging is the worst!

**Hana:** OK, got it.

**Menna:** Another thing you can do is to only buy as much as you need. Throwing away lots of food is a huge waste.

**Hana:** That's all really good advice. I will think more carefully about my food choices in future. Thanks, Menna!
